The Art of Storage, a company that prides itself on inventive ways to organize your life, has created a more fitting way to display your bike when it's not in use. Instead of throwing your cycling partner in the garage, use the Leonardo bike hook to display your bike like the work of art it is. Worried about the walls? The Leonardo hook makes hanging a bike easy and for \$5 more, you can purchase a plastic wall pad to eliminate scuffs in the house.
